

# Grow and Show

## Wooden Hog Feeder

**Smidley Manufacturing, Inc.** aimed to develop a hog feeder that would be cutting edge and innovative while enhancing the 4-H youth's experience. Our feeders save time and energy, as they don't require daily feeding, and they're built to last. The new Grow-and-Show Wooden Hog Feeder can store just over two bushels of feed. Plus, we offer add-ons to further improve the quality of our feeders.

### Grow and Show Wooden Hog Feeder

The Grow-and-Show wooden hog feeder with 2-bushel capacity features the patented Smidley agitator for continuous feed flow. It includes a galvanized steel roof and weather shed to keep feed dry and protected from water infiltration. One-hole feeder for up to 5 hogs.

#### Features and Benefits

- ✓ **Durable & Long-Lasting** moisture-resistant wood prevents warping, swelling and rotting.
- ✓ **14-Gauge Roof & Lid** heavy galvanized steel protects feeder from damage and weather.
- ✓ **Compact Design** provides ease of portability to relocate as needed.
- ✓ **Smidley Patented Agitator** saves time and labor by preventing feed bridging and clogging.
- ✓ **2-Bushel Capacity** enables consistent feed availability, improving rate of gain.
